NOM

MEMORANDUM FOR:

CHAIRMAN, NATIONAL SECURITY RESOURCES BOARD
CHAIRMAN, MUNITIONS BOARD, DEPARTMENT OF DEFENSE
CHAIRMAN, RESEARCH AND DEVELOPMENT BOARD,
DEPARTMENT OF DEFENSE
OFFICE OF THE SECRETARY OF DEFENSE, ATTENTION:
CHAIRMAN, MILITARY LIAISON COMMITTEE TO THE
ATOMIC ENERGY COMMISSION

SUBJECT:

Atomic Energy Intelligence Requirements

1. The Central Intelligence Agency is at present reviewing the detailed requirements for atomic energy intelligence needed by planning levels of the government to provide a basis for planning the production of intelligence estimates designed, insofar as possible, to meet these stated needs. The agencies represented on the Intelligence Advisory Committee have already been requested to submit statements expressing their intelligence needs.

2. Since your office is not represented on the Intelligence Advisory Committee and since it may have a need for specific atomic energy intelligence, you are invited to consider such need and determine if you have any statement of specific requirements which should be included.

3. Any statement you may wish to submit should be forwarded directly to my Assistant Director for Scientific Intelligence, Dr. H. Marshall Chadwell, who has the responsibility for consolidating the requirements from all agencies. Since he is endeavoring to complete the consolidation by 15 December 1950, your prompt action in this matter will be appreciated.
